

California State University Long Beach

BME 455

Lab 2

Instructor: Elsa Harris

Work on the python code for chapter 3 using the auto.csv and Advertising.csv data files (Omit all code related to the credit.csv file). When done please submit:

1. An html or pdf printout of your complete code. Please run the code and make sure the outputs (numerical values, graphs, etc) are printed in the file you submit
2. A Python notebook file

Each student should submit their own files. Add your name to the submission file name. The file name should be in the format: Lab_2_Last_First, for example: Lab_2_Harris_Elsa
